PROFILE:

I studied at the Private High School with focus on design and application development. After high school, I started to build up my 7 years of practice in web design, user interface design and design generally. My practice consists of both freelancing and working for several companies.

Currently, I focus on the growth of my company WEBNI.CZ which was involved in projects such as e-commerce system for Brewery SVIJANY and Flameservis, websites of ODS politician Zdenek Boháč, company Bothe-Schnitzius CZ s.r.o. and City Lobodice. Furthermore, the graphic user interface for back-end and front-end web application for Social Services of Karvina and back-end interface of web application FInventory for company Friendly Systems s.r.o..

WORK EXPERIENCES:

2009 – 2010 Gigant GROUP s.r.o.

- **Web-designer**
- **HTML/CSS Coder**
- **Graphic user interfaces**
- **User Experiences**
- **Adobe Photoshop & Illustrator**
- **.NET Programmer**

In my previous job at Gigant GROUP s.r.o., immediately after being hired, I created more effective implementation of e-commerce system by optimizing source codes and communications between designers and developers. Then I created graphic user interface for back-end application for administration online stores at ALTshop.cz.

Thanks to my experiences, the company could efficiently and quickly implement more online stores, web sites and applications for companies such as EMOS, FAGOR, VARIANT plus, Sky Paragliders, KARAT software, BWS Přerov etc. On these projects I participated in large part by implementing graphics and creating better user experience interfaces. My responsibility was also communication with customers and making their wishes to become reality.

2007 – 2009 Websitemaster a.s.

- **Web-designer**
- **HTML/CSS Coder**
- **graphic user interfaces**
- **PHP Programmer**
- **Adobe Photoshop & Illustrator**

In company Websitemaster a.s. I stood at the birth and development of new version of eStranky.cz website maker, and also the foreign versions of this service. My responsibility was not only communicate with customers but also with English and Hungarian partners. Mainly on the development and

customization of graphic user interface for back-end and front-end design in which I was in charge.

2006 Redenge solutions s.r.o.

- **Web-designer**
- **HTML/CSS Coder**
- **PHP Programmer**
- **Adobe Photoshop**

In this company I worked 3 months full-time. I participated on development of company main product – extensive e-commerce software and its user interface design of the back-end administration.

2006 Winternet s.r.o.

- **Web-designer**
- **HTML/CSS Coder**
- **PHP Programmer**

Three months long full time job. Beginning of my career. Development of graphic user interfaces for e-commerce and other software applications. Especially for travel agency Vítkovice Tours.

OTHER SKILLS & EDUCATION:

LANGUAGES: **Active and fluent English**
 Passive basics of German

CERTIFICATES: **2011 Re-qualification of Computer Networks and Windows Servers**
 2005 Pitman Qualifications Intermediate ESOL
 2004 European Computer Driving License
